

Our **RenWeb School Management Software** gives you, as a busy parent, an opportunity to get more involved in your child's academic progress and future success – all via the Internet!

RenWeb's ParentsWeb is a private and secure website that has been set up for our school to allow you to see information specific to your child. You can view your child's grades, attendance, homework and conduct, as well as other useful school information. You can also communicate with teachers and other school staff online whenever necessary.

RETURNING PARENTS: We need vital information from you for your child's safety and before your child may participate in any extra-curricular activities or off-campus events. **Please update your student's medical and emergency contact information** by clicking on the **School Information** tab, then **Web Forms**, and then **Family Demographic Form** for each of your children. Please make sure all information on this page is current and correct.
